Letter from the Director of ISDE

Mr. Juan José Sánchez Puig

The very etymology of the word Master embodies the philosophy underpinning ISDE's educational objective, where the student is the focal point and the absolute protagonist. All of our resources and efforts are focused on achieving this objective, which is to ensure that the student has mastered the subject matter by the end of the programme.

Partnerships with the leading figures in the world of law and business, a proven training method, the personal attention of the teaching and coordination team, and all of our technical and human resources are placed at the disposal of our students in our quest to ensure that the programmes achieve their utmost educational goals and make the time and effort devoted to them worth the while.

Throughout the years, we have striven and succeeded in ensuring that our students not only acquire the most up-to-date knowledge, but that they also accomplish their personal and professional development goals through the acquisition of skills and competencies that lay the foundation for a new stage in their careers.

The sum of the efforts of the ISDE and its students –without whose commitment the most qualified staff or technical resources would serve no purpose- has made us proud to see how those who trusted us with their training needs have gone on to enjoy highly successful careers and to occupy the senior positions they so brilliantly and so efficiently prepared themselves for.

Loyalty to the spirit and methods that have earned us the trust of thousands of students, and continuous upgrading and improvement of our training methods, have placed us at the forefront of our field, as evidenced by our performance in independent rankings.

The accomplishment of these objectives in recent years has driven us to never lose sight of the fact that our goal is the success of our students.

Mr. Juan José Sánchez Puig
Executive Director

Introduction

This programme is designed for recent graduates in Law and other persons with interest in developing their career in the Sports Law world. The applicants must be able to attend and dedicate one year to the programme as a full-time student. It is also mandatory for all students to have a good knowledge of English as the Master is fully taught in English.

In addition to all the Institutions, Law firms and Sports Clubs that were already partners of this programme, it has now been enriched with the Academic Stay that will take place at the Wolfson College of Cambridge. During the first part of the programme the Students will travel to Cambridge to receive classes from the best sport law specialists from the United Kingdom, in a College that is known to be the most cosmopolitan of Cambridge University. Wolfson College is one of the 31 Colleges of the University of Cambridge, and the majority of the students are carrying out research towards postgraduate degrees, in particular PhDs, MPhils and Master degrees. During this week the students will have the chance to know from the inside the organization of an English Football Club by visiting one. After this time spent in the United Kingdom the students will receive a certificate of attendance of this Academic time spent in Cambridge University.

This new Academic Trip comes in addition to the one that brings our students to Switzerland to visit the most important Sport Organizations, such as the I.O.C., C.A.S/T.A.S, UEFA...

The program is divided into 2 phases:

1st phase: Begins in January and ends in June. During this period, students will attend lectures at ISDE Academic Center in Madrid, Spain (C/ Recoletos, 6).

Students will also attend lectures for a week at Wolfson College, University of Cambridge, UK, as part of the international collaboration programme with Cambridge University. They will also make an Academic Trip to Switzerland to visit the most important Sport Organizations.

2nd phase: From 4 to 6 months in one of our collaborating entities. Each student will complete this internship phase at the premises of one of these collaborating entities of the Master, under the conditions and rules set by those entities. For this reason, the schedule for the second phase is subject to further modifications. The Graduation Ceremony takes place in July. The total duration of the program exceeds 1500 hours.

The descriptions of the topics are drawn up in their main features. All Guest Professors are free to approach and raise any related issues they deem interesting and appropriate.

• **Lectures given by Guest Professors:**

Each week is dedicated to one topic (a few topics are longer and are exceptionally dealt with over two weeks). Each Guest Professor will have at his disposal 8 hours (2 days) to present the topic of the week. The topics are completed by further classes given by senior lecturers of the ISDE, as well as practical classes given by junior lecturers. Some Guest Professors are assigned to practical tutorials. The practical tutorials aim to approach a specific topic through both theoretical and practical ways. The idea is to study a question of Sports law with the support of practical exercise, imaginary or real cases actively debated with the students.

Guest Professors are kindly invited to inform and provide ISDE with the literature and/or documents related to their class that the students shall read and prepare in advance, if any. In any case, each Guest Professor shall feel free to organize practical cases, active exercises or discussions for the students within the time allocated to the class.

• **Lectures given by senior professors:**

The senior professors are experienced lecturers working for ISDE. In principle, normal classes are held twice a week (8 hours). The senior professors will develop and complete the topic of the week in order to give the students the best and most complete overview of each topic. They will be at the disposal of the students by answering their enquiries or by going deeper into specific questions, taking into account the enquiries of the students and the proposal of the Guest Professors.

• **Practical Classes given by junior lecturers:**

Practical classes are usually held once a week (4 hours) and are conducted by junior professors. The practical classes are related to the topic of the week. These classes aim to offer the students the opportunity of getting the practical application of the topics discussed with and taught by the Guest Professors through concrete cases, exercises, description of situations, etc. Guest Professors are cordially invited, according to their availability, to propose, recommend or suggest topics, documentation or specific case law related to their class in view of the practical class to the senior and junior lecturer.

Description of the topics

Introduction

Introduction to sports law in general, sport in society, governance in sport overview of the organizational developments of sport, its national and international institutions, and their legal form from an historical and modern

Mr. Jeffrey Miskhin.
Professor of the Master in International Sports Law

‘The second phase of the program consists of an internship where each student will have the opportunity to put into practice in concrete situations the knowledge acquired during the first phase of the Master. The internship is as well an excellent opportunity for networking and accumulating working experiences that will be useful for those who wish to carry on working mainly in sports law’

point of view, presentation of the rules governing sports activities, the scope of application, the cohabitation of sports law and state law system, sports governing and judicial bodies, and any issues that sports Law and institutions may face in the coming years.

Sports Institutions

IOC and its structures

Presentation of the IOC and its structures, understanding of the IOC, its genesis, its functions, its organizations, its role in the promotion of sport, the delimitation of the competences towards and the cooperation with other sport associations, its statutes and regulations, the Olympic movement.

STUDENTS AGES

Documentation

Applicants willing to participate in the admission process of the Master shall complete a Registration Form, and send it, fully completed, along with the following documentation:

- Curriculum vitae
- Copy of the University Degree
- Copy of the University transcripts or University

results certificate (in case you have not finished your studies at the moment of application, please send us your current academic record)

- A minimum of one reference letter from someone who knows you from an academic or a working background
- Copy of the passport or other relevant identification document

These documents can be directly sent by email or by post, to the attention of the Admissions Department, to:

C/ Recoletos 6, 28001 Madrid, Spain
masters@isdemasters.com

Applying

Those applicants, who successfully meet the minimum entry requirements to join the course, shall also take the following tests on a later date:

- Motivation test
- Psychometric test
- Juridical skills exam
- English level exam

Prospective students are able to submit applications all year round. However, the Admissions Committee assesses the received applications twice a month and Applicants are informed immediately of the outcome of their application.

At the same time, if necessary, applicants can be asked to submit further information or documentation to clarify certain aspects of their academic and/or professional background. The Admissions Committee is also entitled to subject the acceptance of a certain applicant to a personal interview.

The number of the places available to study the Master is limited and applications are assessed on a first come first serve basis; we recommend a prompt application to the program.

Location and Timetable

The first phase of the Master in International Sports Law takes place in our Academic Headquarters in Madrid. The students are obliged to attend lectures everyday plus the additional classes that can take place during also the afternoons. The students shall take practical cases and exams related to the classes they have each week. Furthermore, the students will visit once a week different departments of the top law firms in Spain and other institutions and companies. These legal offices and institutions are partners to ISDE.

The second phase takes place in the law Firms, institutions or companies that have collaborated in teaching the program in the first phase. ISDE collaborates and works closely with institutions in the following countries: Spain, Portugal, France, Italy, UK, Switzerland, Norway, Sweden, Belgium, Germany, Austria, Netherlands, Poland, Canada, USA, Argentina, Chile, Brazil, Panama, Peru, Mexico, Costa Rica, etc. The criteria used to appoint the institution that will receive the student consists in a detailed case by case analysis of the academic performance of the student, personal profile, and the previous acceptance from the receiving institution of that particular student.

Mr. Juan de Dios Crespo. Professor of the Master in International Sports Law. Partner of Ruiz, Huerta y Crespo.

'Students are in search of two differential facts: practical professors and a professional future within their chosen field. In this program you can easily see all the professors in different positions at CAS hearings, UEFA appeals or FIFA proceedings and my previous ISDE students working at international sports bodies or Lawyers offices'

ROBERT PONGRACZ
Former MSL student

'Generally you can describe the master as a great chance to experience and enter the legal world of sports. For me it's fascinating how the most famous sports lawyers who have been involved in the sports world for a long time give you their personal view and experience in the lectures.'

'The facilities of ISDE are essential for this highly professional study. The Master not only helped me to understand better sports from a legal point of view but also contributed very successfully to my career'

MR. JEFFREY A MISHKIN

Professor of the Master in International Sports Law. Former executive vice president and chief legal officer of the NBA. Jeffrey A. Mishkin of Skadden, Arps

'The global business of sport requires lawyers who are well-trained in all aspects of international sports issues. That training is provided on a first-class basis by the ISDE Master Program'

FELIX MAJANI

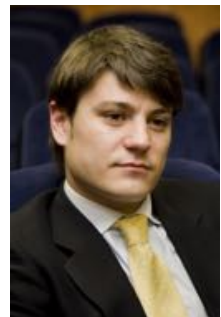

Alumni of the Master in International Sports Law. Lawyer COELHO RIBEIRO E ASSOCIADOS in Portugal.

LORENZO GUERRERO BECERRA

Student of the Master in International Sports Law.

'One of the reasons why I decided to take the Master was because it guaranteed me: to be taught by the best and top professional lawyers in this field and because of the importance that ISDE gives to the practical phase making sure that all the students have the opportunity to work and get involved with prestigious law firms or sport institutions'

'The Master brought together students from different nationalities. Certainly, this has enabled me to mingle as well as learn the diverse cultures of the students enrolled in this master, I personally view the ISDE as having given me the greatest opportunity to not only learn but to also explore the wonderful world of sport from a legal perspective'

GIACOMO LUISI

former MSL student

'A master very complete for people who want to become a specialist in Sports Law. High level of matters and teachers. Perfect organization'
